MEDICAL ALERT CARD

I HAVE DIABETES

Part of the Capital Health Network

I may be having a very high or low blood glucose reaction. These can lead to coma or death if they are untreated. If I am not alert or I cannot swallow, do not try to give me anything to eat or drink. Call 999.

Very Low Blood Glucose (Hypoglycemia)

Signs (may look like drug or alcohol intoxication): I may be shaky, sweaty, staggering, combative, confused, or acting strangely. I may also slur speech, have a seizure, or become unconscious.
